ON SALE APRIL 10th

It's the fundamental comic book question.

"WHO WOULD WIN IN A FIGHT?"

Fans have been posing it forever, mentally pitting their favorite characters against one another. "What if the rock guy meets the radiation guy. Who would beat whom?" In shared comic book universes, characters jump from one series to another and there are fisticuffs. Usually, it ends in the sparring partners teaming up against a common foe, shaking hands, and being friends in the end. But it all starts with that question.

Same thing with crossovers between non-shared universes, whether it be a crossover within IDW or one where we work with our distinguished competition to pose the question across the fictional multiverse.

This month we debut our latest intercompany smackdown, a rematch with our pals over at BOOM! Studios. *Godzilla Vs. The Mighty Morphin Power Rangers II* pits the King of the Monsters against the high-kicking heroes, brought together by, you guessed it, a common foe. In her search for Power Rangers throughout the multiverse, Rita Repulsa gets more than she bargained for when she discovers Godzilla. And it's not just heroes that team up, as the enemy of Rita's new enemy can also be her friend. The Psycho Rangers are more than eager to help if it means they can get Godzilla out of the way and take over Earth at last!

Writer Cullen Bunn was the mastermind behind the first *Godzilla Vs. The Mighty Morphin Power Rangers* series, and he's back for the sequel. He's dreamed up some wild scenarios, taking the crossover name quite literally as he mashes up kaiju with Rangers. Joining him on art this time is rising star Baldemar Rivas (DC Mech, *Lazarus Plant: Dark Fate*), whose cool style is perfect for giant reptiles and superheroes alike. Plus, Freddie E. Williams II is back on covers!

Godzilla Vs. The Mighty Morphin Power Rangers II is only our first crossover of 2024. Expect more announcements soon, including at least one more rematch between popular characters alongside some all-new pairings that will blow your minds.

And speaking of new pairings, while you're in the comic book shop picking up *Godzilla Vs. The Mighty Morphin Power Rangers II* #1, keep an eye out for *My Little Pony: Set Your Sail* #1, also released this month. For the first time ever, the comics will take us to the mythical Seapony kingdoms to meet the underwater friends of the ponies of Maretime Bay!
